a candidate for the office of State Superintendent of Public Instruction, made a short plea for the votes of the people of this county.

The next speaker was Judge Samuel W. Williams, of Wythe. He was introduced by Mr. T. H. Hobertson, of the local har. Judge Williams made a vote winning speech from the start, He stated his postification of the burden of high priced books which our people are forced to bear on account of the fact that his opponent had voted for the multiple list which is against the interest of the people. He took advanced position on the subject of hetter schools, higher pay for the teacher and improvement in those lines. He dwelt on the fact that he is the only candidate representing the great southwest section of the State and appealed to the sense of fairness of the people of the centry that his claims should be recognized. That his district polled the jargest vote in the election last 14 of any district in the State, and it was but fair for them to receive at least one representative on the State field, His speech took well and he made many friends here.

FREDERICKSBURG. VA., July 11.—
Lieutenant-Governor Joseph E. Willard,
Democratic candidate for the nomination
for Governor, addressed a large crowd of
cilizens at the courthouse here to-night.
Colonel E. D. Cole, chairman of the City
Democratic Committee, presided, and Mr.
T. N. Brent, a prominent business man,
introduced the speaker. Captain Willard
was given an ovation when he arease to
speak. After graceful preliminary remarks he plunged into a vigorous discusslop of the questions claiming the attention of the people. He spoke of the
progress being made in the State and
the need of further developing its reflon of the people. He spoke of the progress being made in the State and the need of further developing its resources. He stood for a square deal for every man of any class, and carnestly advocated the proper care of old Confederate solders. He argued for working convicts on the public roads and endorsed the Constitutional Convention for treating the Corporation Commission, which stands as a legal buffet between concentrated, capital and its power and individual interests.

Captain Willard took a firm stand for better education and advocated a single list system of books as the cheapest and best. He favored a State system of supervision of roads, Captain Willard made a splendid impression; his speech was strong, practical and enthugiastic. His sudience gave him close attention and Migacous applause.

Situation Caused By Publication of Testimony at Equitable Investigation.

NEW DIRECTORS ELECTED

Evening Post Says Ryan Also Controls Washington Life Company.

(By Associated Press.) NEW YORK, July 11.—A sufficient num per of directors to carry on the business of the Equitable Life Assurance Society without, however, filling all the vacan cies caused by resignations, were selected to-day at a meeting of the three trusices of the majority stock. The names will not be made public until after they have been presented to the board for format election.

Much comment was excited by the publeation in a morning paper of the testimony taken at the investigation by Superintendent Hendricks. Former Gov-ernor Odell, in an interview at Nowburg. ernor Oddi, in an interview at Nowburg, stated that he had seen none of the evidence until its publication, and offered important suggestions for remedial legislation at the present extra session of the Legislature. No official copy of the testomony has yet reached District Attorney Jerome, in spite, as he said, to-day, of efforts on his part to secure a copy. Tarbell Retained.

Chairman Morton, of the Equitable Life Assurance Society, announced this afternoon that he intended to retain the services of Second Vice-President Gage 15, Terbell: He said he has a promise of Mr. Tarbell's hearty co-operation in the reorganization of the society's business and that Mr. Tarbell's promise, if carried and that Mr. Tarboll's promise, if carried out, will help in no smull degree towards the recovery of much of the business that has been lost in the last half year. Air. Morton also said that the resignation of Archibald C. Hayngs, local agent for the Equilable, will not be accepted.

Controls Another Company. The Evening Post to-day says that Thomas F. Ryan, in addition to his purchase of the Hyde slock of the Equi-table Life Assurance Socity, also con-trols, with his associates, another life insurance company. The Evening Post

says:

"Since January 1st of the present year the affairs of the Washington Life insurance Company have been managed entirely in accordance with the desires of Mr. Ryan and others who were associated with him in the Equitable purchase.

"In February last general attention was attracted to the affairs of the Washington Life by the report made to District Attorney Jerome by State Su-perintendent of Insurance Hendricks, who declared that the mismanagement of its affairs had been simply incom-

of its affairs had been simply incom-prehensible.

"One of the first discoveries made by the investigators was that the company not only was involved to the extent that its surplus was wheel out, but that its capital stock was impaired. However, under its charter, it was possible for the capital of the company to be increased to \$500,000, and this was done, the com-pany thus being given \$375.000 worth of pany thus being given \$375,000 worth of stock to offer for sale."

Bought By Ryan.

Bought By Ryan.

The Evening Post says that this additional stock was bought by Ryan, Levi P. Morton and Harry Payno Whitney for \$155,000 was acquired by Ryan at par, or \$50 a share. Resignations of the Washington 14fe officers were then placed in Ryan's bands, and the balances of the company were transferred to the Morton Trust Company,
"Owing to the connection which the Morton Trust Company has with the Mutual Life Insurance Company, it was perhaps not surprising that Mr. Ryan should have looked in that direction when he came to choose a president for his new concern. He picked out the then associate actuary of the Mutual Life, John Tatlock, to whom President McCurdy promptly gave a leave of absence for ninety days. For yten-president he close Charles F. REVELATIONS IN RECENT INQUIRY

New York World Points Out Some of Things That Were Not Noticed.

(Special to The Times-Dispatch.) NEW YORK, July 11.—The World to

(Special to The Times-Dispatch.)

NEW YORK, July II.—The World today says:
Revelations far more startling than those in the report of Superintendent Hendricks are contained in the testimony taken in the State Insurance Department's investigation of the Equitable Life Assurance Society which The World presents practically in full to-day.

Senator Chauney M. Dopew testified that the Depew Improvement Company, in which he was interested, obtained a loan from the Equitable of \$250,000 on property which the State Insurance Department valued at only \$150,000. He admitted that neither principal nor interest had been paid, and that the Equitable had been forced to forciose.

He admitted that, as a member of the executive committee of the Equitable, he had not advised this loan, but had voted for it. He confessed to making a promise that the Equitable should be made whole, but in the same breath said that Dicob H. Schiff, confronted with recommendation of the Equitable that Kuhn, Loeb and Company had self a large amount of Union Pacific and prector, but said that since the Equitable scandard that a large loss was shown. He confessed that the lad been a duminy director, but said that since the Equitable scandard developed, he had bought have shares of stock, paying \$2,00 a shiers.

It appeared from his teathment in the seathment of them had bought had seathment.

Union Pacific Affairs.

Union Facilic Attairs.

It appeared from his testimony, that of Mr. Hyde and others, that the Equitable had taken \$2,00,000 worth of Union Pacific preferred, apparently at the suggestion of E. H. Harriman. It appeared that this stock was taken under a syndicate agreement that it should not be gold, making the deal a speculative one. No record of this agreement was put in avidence. Mr. Hyde said Harriman had it, but Harriman was not called as a

witness.

President Alexander admitted that he was in eight syndicates that sold securilies to the Equilable. In the case of only two of these did he estensibly pay back prefits to the security. These profits amounted to \$40,000 but he was forced to admit that the Equilable had not yet got the money, it being in the bands of a trustee, He admitted sanctioning ionas of Equilable property to Hyde's safe deposit companies at pominal renal, to the great loss of the society.

James H. Hyde admitted participation in eight syndicates that sold securities to the Equilable. He swore positively that President Alexander was in all of these knowingly. Ho admitted that the \$50,000 he had ostensibly paid back to the Equilable had never reached the treasury.

William H. McIntyre, the close friend

treasury.

William H. McIntyre, the close friend of Mr. Hyds, testified to the big profits made out of the Equitable by the Hyds syndicates. He said Hyds and Alexander apportioned the shares of the gains to the participants. In one deal alone, he said, \$05,000 was cleared. said, \$05,000 was elegred.

Alvin W. Kyrech, president of the Equitable Trust Company, told how young Mr. Hyde, who controlled the Equitable, had made hirg, profits out of the increase in capitalization of the trust company, while the Equitable, which might have profited lurgely, had really sustained losses.

Depew's Testimony.

The World gives the following "striking points in Mr. Depew's testimony at the Equitable guiz:"
Mr. Depew admitted that the Equitable Society had loaned \$250,000 to the Depew improvement Company, in which he was interested.
He admitted that the State Insurance Department had appraised the value of the property covered by the loan at only 160,000.

He admitted that neither loan nor in-

the property covered by the loan at only lists, and the loan that the mortage had been paid, and that the mortage had been foreclosed.

It is said that, as a member of the executive committee of the Equitable, he ild not advise this loan, but voted for it. He admitted making a verbal guarantee to save the Equitable from loss on this loan, but declares that the promise was not legality binding.

As to how he carned his \$20,000 salary from the Equitable, Mr. Dejew said his advice was often asked, and "of course, freely given."

ndvice was often asked, and "of course, freely given."
As a salary-rategr, Mr. Depew said he lifted young Hydo's salary to \$10,000 a year at Hydo's request because of what his father did. He raised Alexander's to make it even with Hyde's.

Points Overlooked.

Points Overlooked.

Another interesting feature of The World report is a tuble showing "Important points strangely overlooked by Hendricks in his inquiry into Equitable affairs." This table says:

A thorough and painstaking examination of the official stonographic report of the examination by State Superintendent of Insurance Hendricks of the officiers of the Equitable Life Assurance Society reveals some startling emissions of obvious inquiry.

First—The lessimony contains references to an auditor's detailed statement of \$7,00,000 of "commissions, advertising, exponses, postage and exchange."

Where is this statement and what are the items of it? Who cise got counsel fees and drew advertising money hesides Root, Hill and Depen?

Why were not these questions asked?

Second—When Ai. Harriman appeared before Superintendent Hendricks, was it as a witness, or for what purpose? It as a witness, where is his testimony?

Why is Mr. Harriman eliminated from the report?

Third—What was done with the Union Pacilite-Harriman would not let him

Pacific-Harriman agreement, which Hyde testified Harriman would not let him

see? Why was not this important phase of the matter exploited to the end?
Pourth—Why was Equitable Trust Company stock sold to Harriman for \$500 a share at a time when the Equitable Society was buying it for \$1,000? Why did Superintendent Hendricks ask no questions along this line of investigation?

gatton?

Fifth-Were the Equitable Society's loans on Harriman securities made to Kuhn, Loeb and Company or to Mr. Harriman? Mr. Schiff denied that the loans were made to Kuhn, Loeb and Company. The books of the Equitable Society show that they were made to Kuhn, Loeb and Company. Were they not in fact made to Harriman and under the authority of a resolution of the executive committee adopted on February 2, 1901? Did not Mr. Hyde and Mr. Snyder, as a sub-committee, furnish Mr. Harriman with funds which were used to put

up Union Pacific on the Stock Ex-Why were not these questions asked by Mr. Hendricks in his investigation?
